Guidelines for Scientific review

1. Choose any one topic mentioned above
2. Title Page: Title of the review, Authors and affiliations. Highlight the presenting author in bold
3. Abstract-The abstract should be no longer than 200 words and should not contain any subsections. Do not cite any references in the abstract.
4. Keywords- Provide at least three to five keywords.
5. Scientific Review
 - a. Write the review in English and use the format as Times new Roman, font size 12 and double space.
 - b. Word Limit: 1500 words, excluding title page, abstract, and references.
 - c. Maximum 2-3 tables and 2-3 figures can be used and must be embedded in the main body in the exact location (with proper legends for both)
 - d. Appropriately cite the references in APA format in the body and add the list at the end of the review. Maximum of 15 references are allowed.
6. Save the document as Name_rmss_2021.doc and email us to rajimemorial@snmail.org on or before Aug 10, 2021
