

Elite School of Optometry

In collaboration with SASTRA Deemed to be University, Thanjavur

MOptom Batch 2019

Placement details

Elite School of Optometry, (ESO) since its inception in the year 1985 has been consistently producing graduates to the global standards in the field of Optometry with 100% job placement. ESO stands as a role model in the academics, research and community work in the field of Optometry and continues to provide world class optometrists for service to the country. Till date, 708 students have passed out from the Bachelor degree, 122 from the Master degree and 10 have obtained Doctorate in Philosophy from Elite School of Optometry.

The scope of optometry is enormous, which include clinical role at hospitals in the outpatient clinics, diagnostic services, and in speciality clinics in the following domains such as Dispensing opticals, Contact lens clinic, Binocular vision clinic, Low vision care clinic, Myopia clinic, Neuro Optometry Rehabilitation clinic, Special Children vision clinic, Ocular Prosthesis clinic, Community outreach and Occupational Optometry services. Optometrists also play a key role as researchers, academicians, administrators, private practitioners and entrepreneurs.

This year too, ten graduates from ESO in collaboration with SASTRA Deemed to be University have passed out with flying colours from the M Optom program. They have acquired unique roles as lecturers at Elite school of Optometry, clinical and research optometrists at Sankara Nethralaya and pursuant of doctoral studies (details are given below). We congratulate them and wish the best for their future endeavours!
